## Noor collection

**Noor.** Brings life to space.

The Noor collection combines elegance, comfort, and modern design with a sleek silhouette and clean lines.

- Noor 4-legs makes lean and lightweight look easy. As a result, it's the most minimalistic in the Noor series. 4-legs Noor is an easy-to-stack chair that's perfectly apt for most dining areas, meeting rooms or study environments, along with your home.
- Noor Sledgebase has a slim yet sturdy stance. It refines classic design by adding a stylistic twist. Bringing distinctive character to lively environments such as schools, universities and canteens, this elegantly robust chair can take a bit of a bashing while remaining as rock solid as ever.
- Noor Footbase could well be the ideal choice for those who thrive in a fast-paced, creative working place and need more mobility. For energetic environments such as open offices or project rooms, this ergonomic chair is pure Scandinavian design on wheels.
- Noor Wooden legs portrays an air of sophistication, which makes it great for relaxed socialising in places such as gallery spaces, high-end dining areas, homes, etc. By fusing modern design with traditional craftsmanship, like fine art, this beautifully framed chair only gets better with age.
- Noor Up stands tall and proud. It's perfect for coffee shops, breakfast bars, or any other bustling social places where the atmosphere is dynamic. This is Scandinavian design with lofty ambitions - encouraging you to happily chat over a drink, or a bite to eat, while keeping you in high spirits.
